- Audio insights - get transcription, translation, subtitles, identify keywords and excitement levels
- Event based Anomaly Detection

VIDEO ANALYTICS SOLUTIONS FOR

SMART CITIES & SMART HOMES

AUTOMOTIVE

BROADCASTERS

Benefits?

Unlock the potential and insights from Video Data

Automated workflows & Context aware Video Analytics Engine

Scalable and customizable for requirement specific Use cases

Key Technologies

DL (Deep Learning)
ML (Machine Learning)

State of the art pre trained AI Models

Machine Vision ,
Language Processing

Features

Content Curation

Sports Highlight generation

Live Video Analytics

Subtitle Generation

Magic Moment

Voice Assistant

Automated Surveillance

Driver Monitoring System

Customer Engagement Analysis

Synthetic Scene Generation (SSG)
