

ODC results in 40% EU MDR Transition Cost Reduction for OEM's Packaging & Labelling Function

60% effort efficiency with process standardization across all manufacturing sites

Scope

- Assessment of P&L function and their corresponding procedures in QMS
- Data mining and management of all relevant documents on single data management platform
- Development of custom tool to standardize input document for all manufacturing sites
- Update and approval (in Agile PLM) of P&L procedures as per EU-MDR in QMS
- Remediation of Packaging & Labelling for 130 product families with ~15000 labels
