

COOKSMART

A Smart Gas Stove

IoT Smart Gas Stove Design

KEY CHALLENGE

A premium IoT gas stove solution for Indian millennials, addressing cooking and home safety needs

SCOPE OF WORK

- Research and Strategy
- UI/UX design
- App development, Implementation and Testing
- Design Engineering
- IoT

KEY CONTRIBUTION

The design and technology teams came together to develop a smart gas stove solution with integrated convenient, intelligent and safety features to address day-to-day cooking and home safety complexities. Patent filed by Tata ELXSI. Ready to be commercialized

PATENT PENDING

Transforming the overall cooking experience

Premium IoT Gas Stove solution

COOKSMART interactive Mobile app
